

Name _____

Block _____

Date _____

Use the syllabus to find each answer. Find it - don't guess.

01 What curriculum and what programming language does this course use?

02 Which ATS course does the school recommend you take before enrolling in this one?

03 How many Big Ideas does the course have? List them.

04 How many Computational Thinking Practices does the course have?

05 How many questions are on Section I of the AP exam? How many minutes do you get, and what percentage of your score is it?

06 How many of those questions ask you to select two answers instead of one?

07 What percentage of your score is Section II? What three things do you submit for it?

STUDENT ACKNOWLEDGMENT

By signing below, I confirm that I reviewed the AP Computer Science Principles syllabus and understand the course policies and expectations.
