

GOOGLE TOOLS VIDEO TUTORIAL PROJECT

Screen Recording | Subtitles | YouTube Submission

PROJECT GOAL

In this project, you will create screen-recorded video tutorials to demonstrate that you know how to use important Google tools. Each tutorial must clearly show the steps on the screen while you explain what you are doing using subtitles.

GENERAL VIDEO REQUIREMENTS

- Be a screen recording.
- **Be at least 3 minutes long.**
- Be saved as a video file before uploading it to YouTube.
- **Use subtitles to explain every step.**
- **Have NO voice narration.**
- Music is optional.
- Be uploaded to YouTube using your personal Gmail account.
- **Be submitted as an UNLISTED YouTube video.**

IMPORTANT: Before recording, close personal tabs and make sure you do not show passwords, private messages, or other personal information.

1. YOUTUBE

Create a tutorial showing how to upload and manage a video on YouTube.

- How to upload a video to YouTube.
- How to add a title and description.
- The difference between these visibility options:
 - Public
 - Private
 - Unlisted
 - Scheduled
- When each visibility option should be used.
- How to add and edit subtitles.
- How to copy and share the video link.

Your final tutorial video must be set to UNLISTED.

2. GMAIL

Create a tutorial showing how to use and organize Gmail.

- How to compose and send an email.
- How to correctly use:
 - To
 - CC
 - BCC
 - Subject
- How to attach a file to an email.
- How to create and use labels.
- What labels are used for.
- How to create a contact group.
- How to send an email to a group.
- How to create an email signature with:
 - Text
 - An image

3. GOOGLE FORMS

Create a sample survey while explaining how Google Forms works.

- How to create a new Google Form.
- How to add different types of questions.
- When to use different question types, such as:
 - Short answer
 - Paragraph
 - Multiple choice
 - Checkboxes
 - Dropdown
 - Linear scale
 - Date
 - Time
- How to duplicate a question.
- How to make a question Required.
- How to change important Form settings.
- How to preview your form.
- How to publish and share your form.
- The difference between sharing the form with someone who will answer it and someone who can edit it.
- How to view responses.
- How to send responses to a Google Sheet.

4. GOOGLE CALENDAR

Use part of your school schedule to demonstrate how Google Calendar works. Create at least 3 different school events.

- How to create an event.
- How to add:
 - Title
 - Date
 - Start and end time
 - Location
 - Description
- How to invite a guest.
- How to add a Google Meet link.
- How to add or change a notification.
- How to create a repeating event.
- How to edit an existing event.
- How to change the Calendar view:
 - Day
 - Week
 - Month

5. GOOGLE SITES

Create a sample Google Site. Your site must include 3 main pages and at least 2 subpages.

- How to create a Google Site.
- How to create pages and subpages.
- How to organize the navigation menu.
- How to add and edit text.
- How to change:
 - Themes
 - Colors
 - Fonts
- How to find an image on the internet.
- How to download the image correctly to your computer.
- How to insert the downloaded image into your Google Site.
- How to insert a YouTube video.
- How to insert content from Google Drive.

- How to preview your site.
- How to publish your site.
- How to copy and share the published website link.

6. GOOGLE DRIVE

Create and organize files using Google Drive. Start by creating a main folder using your name.

Inside your main folder, create these two subfolders:

- Images
- Audio

Your video must show and explain:

- How to create a folder.
- How to create subfolders.
- How to upload a file from your computer.
- How to move a file into the correct folder.
- How to rename a file.
- How to create a Google Sheet from Drive.
- How to rename the Google Sheet.
- How to share a file or folder with another person.
- The difference between:
 - Viewer
 - Commenter
 - Editor
- How to copy a shareable link.
- How to find a file using Google Drive search.
- How to find an image on the internet and download it correctly to your computer.
- How to upload the downloaded image to your Images folder.

Sharing example: mechavez@ats.edu.mx

BEFORE YOU SUBMIT

- ☐ My video is at least 3 minutes long.
- ☐ I demonstrated all the required skills for my assigned Google tool.
- ☐ I explained the steps using subtitles.
- ☐ I did not use voice narration.
- ☐ My YouTube video is set to UNLISTED.
- ☐ I tested the video link before submitting it.

SUBMISSION

Submit your YouTube video link in Google Classroom.
